ENGINEER CERTIFIED

American Steel Carport's products are Engineer Certified to Meet your State Codes. Meaning wind,weather, snow load are all met and engineered as required by your state. Any additional requirements,if needed, such as "Extra" snow load baring weight and wind load resistance" can also be met with engineer certification "upon customer's request". Customized buildings are always welcomed. We also provide generic plans at no extra charge on most standard buildings.

20 YEARS WARRANTY

American Steel warrants for a period of 20 years from the date of completion of installation, against rust through on the framing only assuming normal user care and maintenance on 12 gauge materials. This warranty does not apply to 14 gauge materials. Additionally, galvanization extends the life and appearance of your next structure.

FREE SHIPPING & INSTALLATION

Because we understand the hassle of hiring contractors, we install your steel structure at no extra cost to you on your level land. Don't worry, we assist our customers every step of the way.

90 MPH WIND WARRANTY

Stronger Lasts Longer. With the optional wind warranty packages your structure is guaranteed to withstand harsh winds, plain and simple. Wind warranty packages start from 90 mph and up.

360º ROOF BRACING

Our metal buildings are reinforced with braces on every corner and center of everytruss. These braces are put in place to ensure your shelter remains squared and stable for extra strength, while preventing the roof from caving.

4 SEASON WORKMANSHIP WARRANTY

With the 4 season workmanship warranty, we are standing behind our product throughout the four seasons. Your metal unit will be protected from the natural elements such as heavy snow loads, harshwinds, blazing heat, and anything in between. We have your back. American Steel Carports warrantsfor a period of 1 year from date of complete installation, against defects in workmanship assumingnormal user care and maintenance. See contract for more details.
